## Introduction

The following pages list in-state schools known to satisfy the requirements of Vermont compulsory school attendance law.

Specific conditions relating to the payment of tuition to non-public, approved schools by Vermont school districts are found in Title 16 Vermont Statutes Annotated, (VSA) Sections 821-833. Generally speaking, where a school district operates its own school, the school board is not required to pay tuition elsewhere. A local board may make exceptions based on particular pupil needs.

Recognized schools are not eligible for tuition payments in any case. Whether sectarian schools are either eligible for direct tuition payments or whether reimbursement of parents who pay tuition to sectarian schools is permissible are matters that have been called into question by a recent decision of the Vermont Supreme Court. That decision allowed one parent in one limited case to be reimbursed but did not expressly overrule the reigning Vermont precedent holding direct payment to be unconstitutional. It is expected that further litigation will be required before these questions are answered with any certainty.

This list is not binding on a local school board in the exercise of its authority to determine eligibility for tuition payments in the first instance as proved in 16 V.S.A., Section 828. The department distributes this list as information and assistance to school districts.

All approved and recognized independent schools in Vermont are required by law to provide to the Commissioner the names and addresses of their enrolled pupils on October 1 each year. Individuals, who have questions or seek additional information about independent school, should call Pat Pallas Gray at 828-5414.
